Software & Programming Expertise

R	Proficient	Data analysis and visualization using R. R packages developed independently: • **bruceR** (v2023.8): Broadly Useful Convenient and Efficient R Functions https://CRAN.R-project.org/package=bruceR (Downloads: 42,000+) • **ChineseNames** (v2023.8): Chinese Name Database 1930-2008 https://CRAN.R-project.org/package=ChineseNames (Downloads: 10,000+) • **PsychWordVec** (v2023.8): Word Embedding Research Framework for Psychological Science https://CRAN.R-project.org/package=PsychWordVec • **FMAT** (v2023.8): The Fill-Mask Association Test https://CRAN.R-project.org/package=FMAT • **NgramTools** (v0.1.0): Efficient R Functions for Google Books Ngram Data Analysis https://github.com/psychbruce/NgramTools • **drawMap** (v0.3.5): Easily Draw China Maps https://github.com/psychbruce/drawMap
Python	Proficient	Web crawling, big data collection and processing. • Have crawled 20+ websites for data collection in research.
SPSS	Proficient	Basic and advanced data analyses.
Mplus	Familiar	Structural equation modeling.
JavaScript	Familiar	Using the "jsPsych" toolbox to develop online experiments and surveys.
MATLAB	Familiar	Using the "PsychToolBox" to develop psychological experiments.
Excel	Proficient	Microsoft Office Specialist (MOS) Certification: Expert-Level
Word	Proficient	Microsoft Office Specialist (MOS) Certification: Expert-Level
PowerPoint	Proficient	Microsoft Office Specialist (MOS) Certification: Specialist-Level

Methodological Knowledge

Multiple Regression and Mediation/Moderation Analysis
Multilevel Modeling (Hierarchical Linear Modeling, HLM; Linear Mixed Modeling, LMM)
Meta-Analysis and Meta-Regression
Structural Equation Modeling (SEM)
Multivariate Time Series Analysis (e.g., Granger Causality Test; Vector Autoregression, VAR)
Econometrics (e.g., Instrumental Variable Regression, IVR; Panel Data Modeling)
Machine Learning (e.g., Random Forest Algorithm)
Big Data Collection, Management, and Processing

Workshops & Invited Talks

2023-04 **Discerning Human Society in Natural Language: Methods Based on Frequency, Similarity, and Probability (GNARC ECR Methods Workshop)**
- University of Manchester (invited by Prof. Nan Zhang)

2022-06 **bruceR in the Workflow of Data Analysis**
- Nanjing Normal University (invited by Prof. Chuan-Peng Hu)

2022-03 **Embedded in Word Embedding: Methodological Revolution in the Era of AI**
- Institute of Psychology, CAS

2021-12 **R in Data Science**
- Beijing Normal University (invited by Prof. Zijun Cai)

2021-11 **R Programming and the bruceR Package**
- Peking University (invited by Prof. Guiquan Li)

2021-09 **How to Learn R Programming?**
- Holland Psychometrics Association (online)

2021-06 **How to "Uninstall" SPSS? Tips on Learning R Programming**
- Nanjing Normal University (invited by Prof. Chuan-Peng Hu)

2019-11 **Multilevel Modeling: Methods, Key Issues, and Applications (2-Days Workshop)**
- Institute of Psychology, CAS (invited by Prof. Xingshan Li)

2019-10 **Multilevel Modeling: Methods, Key Issues, and R Programming**
- The 22nd National Academic Congress of Psychology, Hangzhou, Zhejiang, China
